

Features

Econo Mode

This mode limits the maximum power consumption. It improves operating efficiency while fulfilling basic human comfort needs.

Low/High Voltage Shield (Super PCB)

All electrical components in indoor and outdoor units are designed for extreme durability. The printed circuit boards can easily handle large variations of voltage (150V-440V) and increase operation durability.

Gin-Ion Blue Filter

This filter is treated with a positively charged silver ion, which efficiently draws viruses onto its surface and decomposes up to 99.9% in 2 hours. On top of that, this filter can deactivate bacteria and inhibit fungal growth on its surface to improve the quality of indoor air for a healthier lifestyle. The filter delivers consistent performance for around a year if filter is cleaned once every 2 weeks.

Substances can be collected and deactivate by filter:

Viruses

Bacteria

Allergen

Mould

Odour

GO DAIKIN

In-Home & Out-Of-Home Function
Allows You To Control Your AC
At Anywhere Anytime.

Scan the QR code to find out more!

Outdoor PCB protection (Lizard Guard)

The Lizard Guard function is a protective feature built into the outdoor unit, minimizing damage to the inverter board and safeguarding essential components. This innovative design ensures the longevity and reliability of your air conditioning system.

*Only available for RKE25.

Anti-Corrosion Treatment of Outdoor Heat Exchanger Fins

The Outdoor units come with anti-corrosion properties with its Blue fin heat exchanger.

RKE25-71

GO DAIKIN

This built-in network adaptor (AWM61A01) and the app turn a smartphone into a remote controller that can be used inside or outside the home. Together, they help to not only save energy and maintain comfort but also eliminate any worries of forgetting to turn off your air conditioner! (Certain app functions are optional.)

Compact & Easy To Use Controller

- Prominent temperature display.
- Real-time clock display. (ARC486A1 only)
- Easily accessible buttons.
- Wired controller option - SHIRO Wired Remote (BRC51D61)

ARC486A1

BRC51D61

GO CONVENIENCE

- In-home & Out-of-home function allows you to control your AC at anywhere anytime.
- Weekly scheduling allows you to set your AC at your preferred timing at a weekly basis.

GO SAVE

- Statistical energy usage graphs that allows you to monitor and keep track of your daily energy usage to ensure an efficient AC operation.
- With this, greater savings can be achieved as you can now smartly monitor your AC energy consumption!

* The energy consumption values are based on averaged data; Monetary values is calculated based on domestic tariff A at 21.8sen/kWh.

GO COMFORT

- Different operational modes allows you to enjoy the different kinds of cooling experience.
- Advance control* that provides you with even more cooling options for a better cooling comfort.

* May vary depends on model availability

GO SHARE

- User control sharing easily allows you to share your AC controls with your family members through a simple QR code scanning.
- You can unbind the controls or restrict certain app functions of the AC from your family members at any time you desire.

Smart Control Subscription:

- Free 2 years upgrade to Smart Control Pro upon first time successful pairing to network adaptor (AWM61A01). Package will switch back to Smart Control Standard (FREE) after 2 years. User can choose to upgrade to Smart Control Pro with subscription of RM 11.99 yearly per air conditioner.
- Geo-fencing lets your AC automatically turn on when you get home and off when you leave. You can easily set and adjust the distance to match your needs.
- Function includes: On/Off, Operation Mode, Fan Swing, Fan Speed, Powerful Mode, Quiet Mode, Sleep Mode.

Go Daikin App:

- An Internet connection through mobile data or WiFi network is required to use Smart Control function.
- Connectivity of App to AC will depend on the effective coverage area of your Local Area Network (LAN).
- This device supports DHCP (Dynamic Host Configuration Protocol) only. Ensure that your router has DHCP server option function activated before pairing.
- The controllable functions and features may differ depending on the model.
